To all concerned Russian Authorities

ES-TE Folding Systems GmbH is manufacturer of automatic plan folders that are sold worldwide. Today ES-TE employs 53 people and is world market leader in the business of wide format folder business.

ES-TE has been dealing with Mr. Igor Vishnevsky and his companies since 2006. Over this period the company Forum has successfully risen third place in our customer rating.

Forum has proven to be very dedicated and reliable partner who fulfills the obligations punctually and reliably. There has never been a single overdue invoice in the past 7 years.

Credit lines have never been over extended; all results of negotiations and contracts have been observed and fulfilled to the letter.

Mr. Vishnevsky as owner and executive has been a very reliable and trustworthy person. He is among those business partners that are trusted by their word. We have never experienced any situation where Mr. Vishnevsky has not fulfilled any contract or agreement even if it was to his disadvantage.

Personally I can say that Mr. Vishnevsky is a very professional and loyal person. He is a person that lives by the rules and that always worries about his coworker's well-being as well as about the environment. From my personal point of view Mr. Vishnevsky is the prototype of the ideal entrepreneur.

Mr. Vishnevsky was the person that established "estefold" as a well-known brand in Russia's wide format printing business having a major market share nowadays. We have seen the business grow over the past seven years and it is still growing although at a lower rate nowadays.

It is a pleasure for me and ES-TE to be Mr. Vishnevsky's business partner.
